

Infinite Speaks

by

Albert Carrasco

Infinite Speaks *by* Albert Carrasco

Objective

The Objective is simple . . . it is to get into the fertile minds of the youth and affect their thinking with possibilities that lead to life instead of death. We will impart thoughts that lead to Growth, Empowerment, Humanity, Compassions for themselves, their Families, their Communities and the World of us all.

Presentation

We encourage the growth of a Pure Self Expression via . . .

Writing

Poetry

About Mr. Carrasco

Albert Carrasco is a survivor. He is a Soldier who has changed his uniform and has aligned himself with a different purpose in life. Having survived a life on the Streets, which includes all the ways our youth get caught up in Crime, Death and the Justice System. Many of our Youth are lost, dysfunctional, incarcerated or on their way and killed every day. Albert did some “Soul Searching” and he knew in his heart there must be a better way to live, then he went about searching for it. The life he left behind, he felt no Human Being should have to live.

Today, Mr. Carrasco spends his time as a Father, a Man of a certifiable Truth who speaks authentically from his own experiences. His mission is simple . . . to share his Scars, his Pain, his Insights and Revelations that he may motivate the youth to consider walking a different path than he has. Albert says . . .”There is Hope!”. The question still remains, what are we others going to do about it ?

Mr. Carrasco and his Power Crew are available for Presentations, Public Speaking, Workshops and other Talks about the Real Streets and Self Empowerment.

Infinite Speaks *by* Albert Carrasco

Albert Carrasco was born in Bronx, New York in 1971. In 1972 his family moved to the Castle Hill Projects. This is where he resided for the next twenty two years. Albert is the middle child of 3. His Father is an Honorably Discharged Veteran of The United States Air Force and his Mother a former Military Nurse turned Housewife and Mother.

Albert was an innocent, disciplined and well rounded kid, and that's how it would remain for just a short twelve years. Albert's Father passed of Cancer in 1984. This is when things began to change dramatically. 1984 was the year when crack cocaine made its debut as the cause to the worst drug epidemic New York City would ever witness. Without the bread winner around anymore Albert's quickly witnessed poverty. No income, no food, bills are all late and eviction notices were

constantly being placed under his family's door. He could not accept see his loving Mother struggling anymore. Against all his Mothers wishes he went out and got caught up with Drug Dealers and Pushers. Albert became a young hustler, thinking that with the streets he could help make things better for her and his Family.

At the age of fifteen Albert was arrested for on a Gun possession charge and was sent to Spofford Juvenile Facility. At sixteen he was shot twice. Also at the same age one of his best friends was murdered. By twenty he had already achieved infamous status on the streets. By thirty he realized he was trying to win in a losing game. Albert has seen it all. He now mourns for about twenty friends. He also has close friends who are in jail forever. They past "partners in crime" have absolutely no chance on walking the streets again. They will end their lives there, behind bars. Albert woke up and he walked away from it all.

Albert has been writing since childhood. He somehow found himself going back to those times when things were perhaps a bit clearer. Now at the age of forty two, Albert is an Author, Poet, Spoken Word Artist, Public Speaker and an Activist for our Youth. He focuses on the hurt and pain gained from the "game" since age twelve to thirty. He bares his scarred soul hoping the young world will stop to look and listen and provide themselves with an opportunity to actually grow old apart from the Street Life and the other plagues that affect those who make No Choices or Poor Choices.
